ALL PLAYED OUT - 2015

I'm all played with on your excuses
You been giving them to me too many times

I'm all played out on your excuses
And there's too many other good girls
That want to be mine

I told you I was coming home
And all I wanted to do
Was spend a little time alone
Cuddling up next to you

You said come home I'm ready
But when I passed by the bar
What did I see sitting in the lot
But your brand new shiny car

I'm all played with on your excuses
You been giving them to me too many times

I'm all played out on your excuses
And there's too many other good girls
That want to be mine

I remember you telling me
You were on your way
But I didn't hear you ring that bell
Until the next day

If you're wondering why
I didn't bother answering the door
It's cause the beautiful girl laying next to me
Was your present from the night before

I'm all played with on your excuses
You been giving them to me too many times

I'm all played out on your excuses
And there's too many other good girls
That want to be mine

There's too many other good girls
That want to be mine

How many of you good girls out there
Want to be mine

IT'S ALL IN MY HEAD - 2016

It's all in my head
This pain in my heart
That perfect romance
Fell all apart
But you've won again
If you'll let the new love start
Cause it's all in my head
Somebody please tell my heart

Just like the story of how we met
It was a beautiful kind of feeling
You just don't forget

I wonder do you think of it too
And do you lay awake at night
Thinking how could you

It's all in my head
This pain in my heart
That perfect romance
Fell all apart
But you've won again
If you'll let the new love start

Cause it's all in my head
Somebody please tell my heart

And why do you stay
In my dream when you clearly walked away
This anguish is killing my soul
Lord take these memories from me
And let me move on

It's all in my head
This pain in my heart
That perfect romance
Fell all apart
But you've won again
If you'll let the new love start
Cause it's all in my head
Somebody please tell my heart

It's all in my head
Somebody please
Tell my heart

SMILES LIE - 2015

Yesterday is history
Tomorrow is a mystery
But today is the best gift
That you'll ever get

Open up your eyes and learn
If you think it has been easy
I didn't work this hard to stay
Where I was supposed to be

When the pain comes back your way
You can stand and say

Smiles lie
It's not brave if you're not scared
To lose your life
Anger hides
All the ways that claim

Time is a teacher
That has taught me well
A different perspective
Sheds light on what is real

Knowledge can be rough
But it's a lot better with it
Don't pursue happiness
Go create it

And when the pain comes back your way
You can stand and say

Smiles lie
It's not brave if you're not scared
To lose your life
Anger hides
All the ways that claim

THE CAIN - 2015

I know the cain
I know the whole family
If success is your aim
Take some help take it from me
You must be insane
If by now you don't know the cain

Everybody's always talking about marijuana
Cause it legal now being the thing you wanna
Do if anxiety is making you a nervous wreck
And life ain't giving what you deserve to get

But you wouldn't have none of that
If you'd only understand
The world don't owe you shit
So line it out and work the plan

Mary Jane can't compete
That's not opinion that's a fact
Cain's undefeated in tasks complete
And internationally backed

I know the cain
I know the whole family
If success is your aim
Take some help take it from me
You must be insane
If you'd rather smoke that marijuana
Then know the cain

Let me show what you can do

You must be insane
If by now you don't know the cain

You must be insane
If by now you don't know the cain

POCKET FULL OF ROCKET - 2016

Fired up to get out like a rocket
Got enough money in my pocket
In a new town on Saturday night

Don't be the one to stand against me
I'm going doing all and be free
Do what I want or they'll be a fight

I only play by my rules
And only the fools will not play

Going all in on the one
Starting off with all the fun
I'm here and you want to be with me

No lines, only vip
Told you you'd want to be with me
Special things laid out for only us to see

I only play by my rules
And only fools will not play the game

Got the rocket in my pocket
And we're superstars
Got the rocket in my pocket

And we're superstars
Got a pocket full of rocket
And they can't stop it

Got the rocket in my pocket
And we're superstars
Got the rocket in my pocket
And we're superstars
Got a pocket full of rocket
And they can't stop it

GIVE ME FIVE MINUTES - 2015

Give me five minutes
When you walk into the room
Before you talk to me
Baby please, it's best if you do

Cause all I really want to do
When I come home is kick off my shoes
Maybe sit and stare at you
And remember why we fell in love
But you keep on talking to me

About your friends who I don't even know
Cause I never really meant them
But you want to tell me their business anyway

Is it Jill, Jackie or the other Jackie
Who used to work for you but now lives in Spring
I don't care about her ex-husbands dating habits anyway

So give me five minutes
When you walk into the room
Before you talk to me
Baby please, it's best if you do

Cause all I really want to do
When I come home is kick off my shoes
Maybe sit and stare at you
And remember why we fell in love
But you keep on talking to me

What we're going to bring this year
For Christmas Eve maybe cherry pie
Even though Karen usually brings one

I don't see what the big deal is
I think your pie's as good as hers, maybe even better
If it such a issue I just get the whole thing catered
By Joe's BBQ

You keep on talking to me...
You keep on talking to me...
You keep on talking to me...

JUST A GIRL - 2015

I still get butterflies
When I know I'm going to see you
And I know that's something
That I shouldn't do
But that's just me

When our eyes first meet
Before we say hello
I like to just look at you
And never let the moment go
But that's just me falling for you

Even though you feel it too
Something's always stopping you
A love that will never be
Cause now your just a girl to me

When your hand goes from my shoulder
And moves gently down my back
And you reach to whisper in m y ear
That you love it when I do that
That just you

When we hug the world seems to stop
We hold each other just a little too long
When I star into your big brown eyes
And they sing to me like a song

But that's just you playing with me

Even though you feel it too
Something's always stopping you
A love that will never be
Cause now your just a girl to me

A love that will never be
A love that's never going to be
A love that will never be
Cause now your just a girl to me

But I still get butterflies

THE LETTER - 2014

Another one of those letters came today
It read like before except
The name was changed on the plaintiff line
But the other one was still mine

Staring at the phone
Wanting it to ring

Remembering is good
Even when it brings pain
And the feelings that should
By now be cast away

And as promised
Your words won't leave

If we are to live
We must take this in stride
For there might be another goodbye
That if your lucky will hurt
As much as this one

And if the world you live
Is built around this form of education
Then you will truly see beauty
In even the smallest of people

Remembering is good
Even when it brings pain
And the feelings that should
By now be cast away

And as promised
Your words won't leave

JUST THE RIGHT SIZE - 2016

They tell me it's big
But I just don't believe them
It's hard to tell when
When you've had it all you're life

But I don't really care
Cause it's what God's give me
And because of that it's just the right size

By the time my first girlfriend
Rolled around it was long
She was just a bit older than me
Cause I could sing a song

Everything was going well
As time moved along
The dang thing kept growing
And she left me alone

They tell me it's big
But I just don't believe them
It's hard to tell when
When you've had it all your life

But I don't really care
Cause it's what God's give me
And because of that it's just the right size

As I've grown it's not hard to notice
How the women all treat me
And the random guys hanging around
Don't necessarily like me

But what can I do
It sticks right out for all the world to see
I hear it keeps growing till you die
And that's damn near frightening

They tell me it's big
But I just don't believe them
It's hard to tell when
When you've had it all you're life

But I don't really care
Cause it's what God's give me
And because of that it's just the right size

SOMEDAY - 2016

Maybe someday
You may show up on my door step
Telling me you love me
And crying like a loon

Maybe someday
I'll open up that door
And say come on in
But that someday
Won't be any someday soon

You mended this old calloused heart
That day I let you it
Doing all the little things
People in love do

It might have made a full return
And hardened up again
But you keep coming round
About the time my feelings end

So maybe someday
You may come knocking on my door
Telling me you love me
And you want to try once more

Maybe someday

I'll open up that door
And say come on in
But that someday
Won't be any someday soon

No I guarantee that someday
Won't be any someday soon

BY AND BY - 2016

By and by
I will have a new love song
So I'll try
To find someone new to sing for

So goodbye for now
Though we may meet again
I can't say this will be the end

By the by
You'll be fine on your own
So I'll try
To leave no lingering trace

Of our time shared here
So as to not get in the way
Of what new thing may come to you today

Bye and bye
Safe travels now my friend
Please don't cry
I said before this might not be the end

But goodbye for now
I see a new conquest for me
And it be rude to make you watch
Don't you agree

So bye and bye
